About Vue Vixens

Vue Vixens, a 501(c)(3) public charity (EIN 83-3866803), is an initiative founded by Jen Looper in 2018 that creates and hosts workshops, meetups, and events to teach Vue.js to under-represented people in a cool and fun way. The goal of the program is to familiarize women and those who identify as such with Vue.js in a supportive and inclusive environment. Our corporate-sponsored scholarship fund allows us to help women attend technical conferences to build their careers. We have also hosted successful longer events such as Vue Vixens Day in Argentina and Colombia and we have many chapters worldwide! Contact us at info@vuevixens.org

About Vue Vixens Day US

Vue Vixens Day US follows in the tradition of Vue Vixens Days in Colombia and Argentina, offering a free one-day community conference on a diverse range of topics. Our speakers include well-known community leaders who identify as women and who are excited to share their technical knowledge and career-building advice.

Attendees who identify as women only will have a chance to participate in workshops.

There will also be provision of breakfast, lunch and coffee at the event, lots of fun and networking.

Join us at Capital Factory in Austin, TX on March 5th, 2020 for the first Vue Vixens Day US, following Vue Conf US.

Our Event in Numbers
- 100+ Attendees
- 2 Keynotes(Opening and closing)

- 5 technical and skills-building talks
- 5 lightning talks
- Cost: Free for all attendees

About the Venue

Capital Factory is located on 701 Brazos St, Austin, TX. It is more than a coworking space – it's the center of gravity for entrepreneurs in Texas. We will use their Voltron room, which includes an open stage, streaming and AV/equipment. The venue also includes a fast and reliable internet connection, and catering facilities. A prime location for a prime event!
